

Save up to 95% on Inkjet Printing Costs!

Ideal Information Technology

Saving you money

We Supply and install RIHAC brand

Continuous Ink Supply Systems

This is a tank holding a large supply of ink outside the printer, which is fed to the printer as needed.

Benefits

- Very low ongoing cost – e.g. \$13 for 100ml of high quality ink.
- You get so many prints!
- Never run out of ink right when you need your printer.
- No buying and storing expensive spare cartridges in case you run out.
-

Available for these brands

HP Canon brother EPSON

Install yourself, or have Ideal Information Technology install for you. This flyer has been printed using the RIHAC Continuous Ink Supply System. We have printed over 18,000 A4 pages of flyers, photos and documents. We have saved a lot of money and you can too.

Includes either 400ml or 600ml of ink. RRP only \$120 - \$170

For example HP02 CISS includes 600ml – equivalent to more than 17 sets of 6 original cartridges.
